City Bankers, 1890-1914 Youssef Cassis,1994-09-15 City Bankers, 1890-1914 is a major contribution to a controversial area of economic history and to the debate about the nature of British society in the late Victorian and Edwardian eras. It provides a detailed analysis of the banking community of London between 1890 and 1914 when the City of London was the undisputed financial centre of the world.

The Rise of Middle-Class Culture in Nineteenth-Century Spain Jesus Cruz,2011-12-12 In his stimulating study, Jesus Cruz examines middle-class lifestyles -- generally known as bourgeois culture -- in nineteenth-century Spain. Cruz argues that the middle class ultimately contributed to Spain's democratic stability and economic prosperity in the last decades of the twentieth century. Interdisciplinary in scope, Cruz's work draws upon the methodology of various areas of study -- including material culture, consumer studies, and social history -- to investigate class. In recent years, scholars in the field of Spanish studies have analyzed disparate elements of modern middle-class milieu, such as leisure and sociability, but Cruz looks at these elements as part of the whole. He traces the contribution of nineteenth-century bourgeois cultures not only to Spanish modernity but to the history of Western modernity more broadly. *The Rise of Middle-Class Culture in Nineteenth-Century Spain* provides key insights for scholars in the fields of Spanish and European studies, including history, literary studies, art history, historical sociology, and political science.

The Dare Harley Laroux,2021-01-26 Warning: This erotica contains scenes and elements that may be disturbing to some

readers. Please review the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised. Kinks/Fetishes within: erotic humiliation, fearplay, painplay, knifeplay, consensual non-consent (CNC), orgasm denial, boot worship, spanking, crying, blowjobs, clowns, group sexual activities, spit, bondage, public play, bloodplay.

Art Song Composers of Spain Suzanne Rhodes Draayer, 2009-03-26 Art Song Composers of Spain: An Encyclopedia describes the wealth of vocal repertoire composed by 19th- and 20th-century Spanish song composers. More than 90 composers are discussed in detail with complete biographies, descriptions, and examples of the song literature, as well as comprehensive listings of stage works, books, recordings, compositions in non-vocal genres, and vocal repertoire. Opening with a thorough history of Spain and its political scene, author Suzanne Rhodes Draayer examines its relation to song composition and the impact on composers such as Fernando Sor, Sebasti_n de Iradier, Federico Garc'a Lorca, Manuel de Falla, and many others. Draayer discusses Spanish art song and its various types, its folksong influences, and the major and minor composers of each period. Beginning with Manuel Garc'a (b. 1775) and ending with Carmen Santiago de Meras (b. 1917), Draayer provides biographies of the composers, a discussion and analysis of songs available in print in the US, and a complete list of solo songs for each. Musical examples are given for 175 songs, demonstrating a variety of compositional techniques and lyrical text settings, and illustrating characteristics of orientalism (Moorish) and cante jondo (gypsy) elements, as well as influences such as the German lied and French mZlodie. The final chapter lists contemporary composers and considers the difficulties in researching music by women composers. Complete with a foreword by Nico Castel, a bibliography, and additional indexes, Art Song Composers of Spain proves the importance of the Spanish song as an essential part of vocal training and concert repertoire.

Discovering the History of Psychiatry Mark S. Micale, Roy Porter, 1994
This book brings together leading international authorities - physicians, historians, social scientists, and others - who explore the many complex interpretive and ideological dimensions of historical writing about psychiatry. The book includes chapters on the history of the asylum, Freud, anti-psychiatry in the United States and abroad, feminist interpretations of psychiatry's past, and historical accounts of Nazism and psychotherapy, as well as discussions of many individual historical figures and movements. It represents the first attempt to study comprehensively the multiple mythologies that have grown up around the history of madness and the origin, functions, and validity of these myths in our psychological century.

Cámara y modelo Iñaki Bergera, 2016
This book pays tribute to two important systems of architectural representation: the model and the photography. It rescues over one hundred original photographs of outstanding models - finally built or not built - in Spain during the twentieth-century. A modern, visual, critical and historiographical discourse of the first magnitude. Beyond the analysis of their technical or compositional structure, the book includes sample pictures by photographs like Catala- Roca, Kindel , Pando, Llado, Maspons - Ubina Gomez or Massats and architects as Aizpurua , de la Sota and Higuera

From Asylum to Community Gerald N. Grob, 2014-07-14
The distinguished historian of medicine Gerald Grob analyzes the post-World War II policy shift that moved many severely mentally ill patients from large state hospitals to nursing homes, families, and subsidized hotel rooms--and also, most disastrously, to the streets. On the eve of the war, public mental hospitals were the chief element in the American mental health system. Responsible for providing both treatment and care and supported by major portions of state budgets, they employed more than two-thirds of the members of the American Psychiatric Association and cared for nearly 98 percent of all institutionalized patients. This study shows how the consensus for such a program vanished, creating social problems that tragically intensified the sometimes unavoidable devastation of mental illness. Examining changes in mental health care between 1940 and 1970, Grob shows that community psychiatric and psychological services grew rapidly, while new treatments enabled many patients to lead normal lives. Acute services for the severely ill were expanded, and public hospitals, relieved of caring for large numbers of chronic or aged patients, developed into more active treatment centers. But since the main goal of the new policies was to serve a broad population, many of the most seriously ill were set adrift without even the basic necessities of life. By revealing the sources of the euphemistically designated policy of community care, Grob points to sorely needed alternatives. Originally published in 1991. Team 10 Max Risselada,Dirk Van der Heuvel,Kenneth Frampton,2006-03 Team 10, 1953-1981 brings together the complete history of this influential European architectural fellowship for the first time, delving into hitherto closed collections and archives, and bringing readers formerly unavailable documents and the insights that come with them. From the mid-1950s well into the 1970s, the ongoing debate on Modern architecture and the city found new life in this crowd of young architects spun off from Le Corbusier's influential Congrès Internationaux d'Architecture Moderne (CIAM). The members of Team 10 had assembled as a subgroup within CIAM, but soon began to hold their own meetings. Their lively crowd--which included Dutch architects Aldo van Eyck and Jaap Bakema, Alison and Peter Smithson from the UK, Giancarlo de Carlo from Italy, and Georges Candilis and Shadrach Woods from France--debated the architect's role in issues of modernization, the welfare state and consumer society. Their influential and inspiring exchanges were often sparked by the

members' also influential and inspiring projects. Team 10 left a body of thought and work that still speaks to architectural practice today, and will for generations. Team 10, 1953-1981 opens with an abundantly illustrated survey of the group's meetings, events, and projects, includes essays from leading scholars on its work and its legacy, and concludes with a series of interviews with former Team 10 members--an unparalleled self-portrait of the group.

Shell Shock to PTSD Edgar Jones, Simon Wessely, 2005-09-30 The application of psychiatry to war and terrorism is highly topical and a source of intense media interest. *Shell Shock to PTSD* explores the central issues involved in maintaining the mental health of the armed forces and treating those who succumb to the intense stress of combat. Drawing on historical records, recent findings and interviews with veterans and psychiatrists, Edgar Jones and Simon Wessely present a comprehensive analysis of the evolution of military psychiatry. The psychological disorders suffered by servicemen and women from 1900 to the present are discussed and related to contemporary medical priorities and health concerns. This book provides a thought-provoking evaluation of the history and practice of military psychiatry, and places its findings in the context of advancing medical knowledge and the developing technology of warfare. It will be of interest to practicing military psychiatrists and those studying psychiatry, military history, war studies or medical history.
